Sudan & Emergency Relief Fund

The Brethren of the Lord who struggle to meet their daily needs are typically unable to support themselves in the aftermath of unexpected losses. Due to high levels of poverty and unemployment, it is nearly impossible for the average Egyptian to maintain a personal savings for a "rainy day". The Emergency Relief program was formed to assist victims of natural disasters, unexpected accidents, catastrophes and acts of terrorism. The program also extends assistance to Christians living in precarious conditions in Sudan.

Note: After the revolution of 30 June 2013, Our beloved country Egypt has suffered from violent events. Consequently, BLESS has sent immediate support to the affected Christians in the amount of 626,192.50 L.E.
Program Details

Stats for Year: 2013
